

LOSS OF APPETITE

Most Successfully Treated by Taking Hood's Sarsaparilla.

Loss of appetite is accompanied by loss of vitality, which is serious.

It is common in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what is absolutely necessary for the proper performance of their functions.

Hood's Sarsaparilla, the old reliable all-the-year-round medicine, is especially useful in the spring. Get it from your druggist today. By purifying and enriching the blood and giving vitality, vigor and tone, it is wonderfully successful in the treatment of loss of appetite and the other ailments prevalent at this time. It is not simply a spring medicine—it is much more than that—but it is the best spring medicine.

Hood's Sarsaparilla makes the rich red blood the digestive organs need.

FIRST WELLS IN BIG OIL FIELD NOW HISTORIC

Oilton, Okla., April 21.—The first wells that were drilled in this big oil field have now a historic interest and value. The men who drilled them had no prophetic vision of the mammoth field that was to be developed, the greatest in the world. They were wild-catters of the most superlative brand. That was about four years ago.

The first well, in fact, was a dry hole. It was drilled by B. B. Jones and T. B. Slick on the Mamie Blackwell, in northeast northwest section 23-18-7. The nearest production is about a half mile west, where a pretty fair well was brought in afterward.

The second test was made by Jones, Slick and Wrightsman on the Annie Jones allotment, north of Drumright, in northwest section 32-18-7, where a fair well was brought in, in the Wheeler sand. All of this country is now drilled up.

The third well was in northwest section 34-18-7, on the Albert F. Barney, a gasser being the result. At the present time there is no production east of this point. It was drilled by C. B. Shaffer and Slick.

The fourth well was on the Fullerton farm, in northwest 5-17-7, where a good producer was secured in the Wheeler sand; this is now a part of the present townsite of Drumright. This well was drilled by Shaffer alone.

THE SORT OF HOME THE FLY LIKES.

Flies can not breed in dry places; they can not breed in clean places. But they do thrive in stables, cow barns, pig pens and dirty kitchens. Decaying vegetables, meat and cheese, dead animals, rotting straw, paper and rags, are the things flies like best.

SWAT THE FLY.

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Weyth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Weyth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

MEN ON ILL-FATED DR. BUTLER'S SUBMARINE DIED WITHOUT HURTS

REAR ADMIRAL MAKES DETAILED REPORT OF F-4 DISASTER; EXPLOSION

Washington, D. C., April 21.—Hope that the crew of the ill fated submarine F-4 died quickly, escaping the torture of suffocation as the vessel lay at the bottom of Honolulu harbor, is held out in a mail report received at the navy department today from Rear Admiral Moore. Experts on the scene, the admiral said, believe the twenty-one officers and men were killed by an internal explosion.

"There is no positive information at hand upon which to base a reliable theory as to the cause of the accident," said his report, "but it is believed by the submarine experts here that the men in the boat were killed by some sort of internal explosion. They believed that had there been one man left alive he could have made signals or blown the tanks and thus caused the submarine to rise."

Since this report was written, ten days ago navy divers from the New York navy yard with special equipment have reached Honolulu to aid in the efforts to raise the F-4. Lines have been attached to the sunken hull and it is being gradually hauled into shallower water.

LISTENS FOR F-4 BELLS.

Admiral Moore's report says: "After very arduous labor the only success achieved has been the location of the F-4 in about forty-five fathoms of water. The submarine F-1 went out to look for the F-4 and submerged to listen for her bells. No sound of any has at any time been heard of the F-4. From this fact it is concluded that members of the crew were the victims of some sort of disaster that promptly killed them and it is hoped that they were not subjected to a long period of suffering due to the fact of their submersion."

"The efforts up to Sunday morning March 28, consisted of sweeping for the vessel over the spot where bubbles and oil were seen to be rising. On Friday afternoon it was believed with a degree of certainty that lines had been swept under the submarine and efforts were made to drag her in to shallow water but the lines which had been taken to the Navajo parted and it was necessary again to sweep. When the Navajo lines which had parted were hauled in a piece of bronze metal was hauled up which was recognized, I am informed, by the commanding officer of the submarine division, as a piece of the fair water of the F-4, thus confirming the idea that the Navajo had had hold of the submarine."

Another Mis-Catch is Made.

"Saturday was spent in getting another hold on the submarine and it was believed that we had again caught the vessel, but on Sunday morning on heaving up, we found that we had caught a heavy anchor which had been lost by a steamer some time previously."

"On Monday, two lines were swept under the submarine and crossed so that they held and during the night of Monday the tug Navajo, aided by the Mahanah towed, while the dredge California, endeavored to lift the submarine and they had succeeded in moving her a slight distance into shallow water, she first having been located in about 300 feet, when the line to the dredge parted at about five o'clock Tuesday morning."

"It had been concluded on Tuesday morning that the method which had been pursued was inadequate to the task and the department had been so informed by telegram."

BOOMED FOR WHITE HOUSE

NAME OF COLUMBIA PRESIDENT PROPOSED AT LOTUS CLUB DINNER

New York, April 21.—Members of the Lotus club, where the name of Woodrow Wilson was first publicly mentioned as a presidential possibility four years ago tonight proposed "a second winning candidate" in the person of President Nicholas Murray Butler, of Columbia University, in whose honor the club was giving a dinner.

Ex-Representative Samuel W. McCall, of Boston, made the speech advocating Doctor Butler as the most available Republican candidate.

When he concluded, Frank Lawrence, president of the club, reminded those present that it was at just such a dinner that Woodrow Wilson's name was first offered to the public for the Democratic nomination in 1912.

"And you know when we named a candidate before," he said, "the idea took—with disastrous results."

Most of the speeches praising Doctor Butler were marked by slighting references to President Wilson and his policies, and declarations that a change was needed at the White House.

If you check up the number of bottles used you will find Foley's Honey and Tar in greater demand than any other cough medicine. It is safe, prompt and effective for colds, croup, hoarseness, bronchial coughs, throat troubles and laryngitis. It contains no opiates and is the preferred cough medicine for children. Sold everywhere.

CHOCTAWS MEET IN CONCLAVE AT DURANT.

(CONTINUED FROM PAGE ONE)

many sources, which money is now held in the National Treasury, and become as other citizens of the state. This matter of winding up the affairs has been dragging the Choctaws think, too long. They see no need for further delay. The rolls have been completed for many years. The lands have been allotted. Millions of dollars have been collected by the government for the Indians of the tribe from sale of coal and asphalt lands, townships, royalties on mineral production and other sources.

Elections Continued.

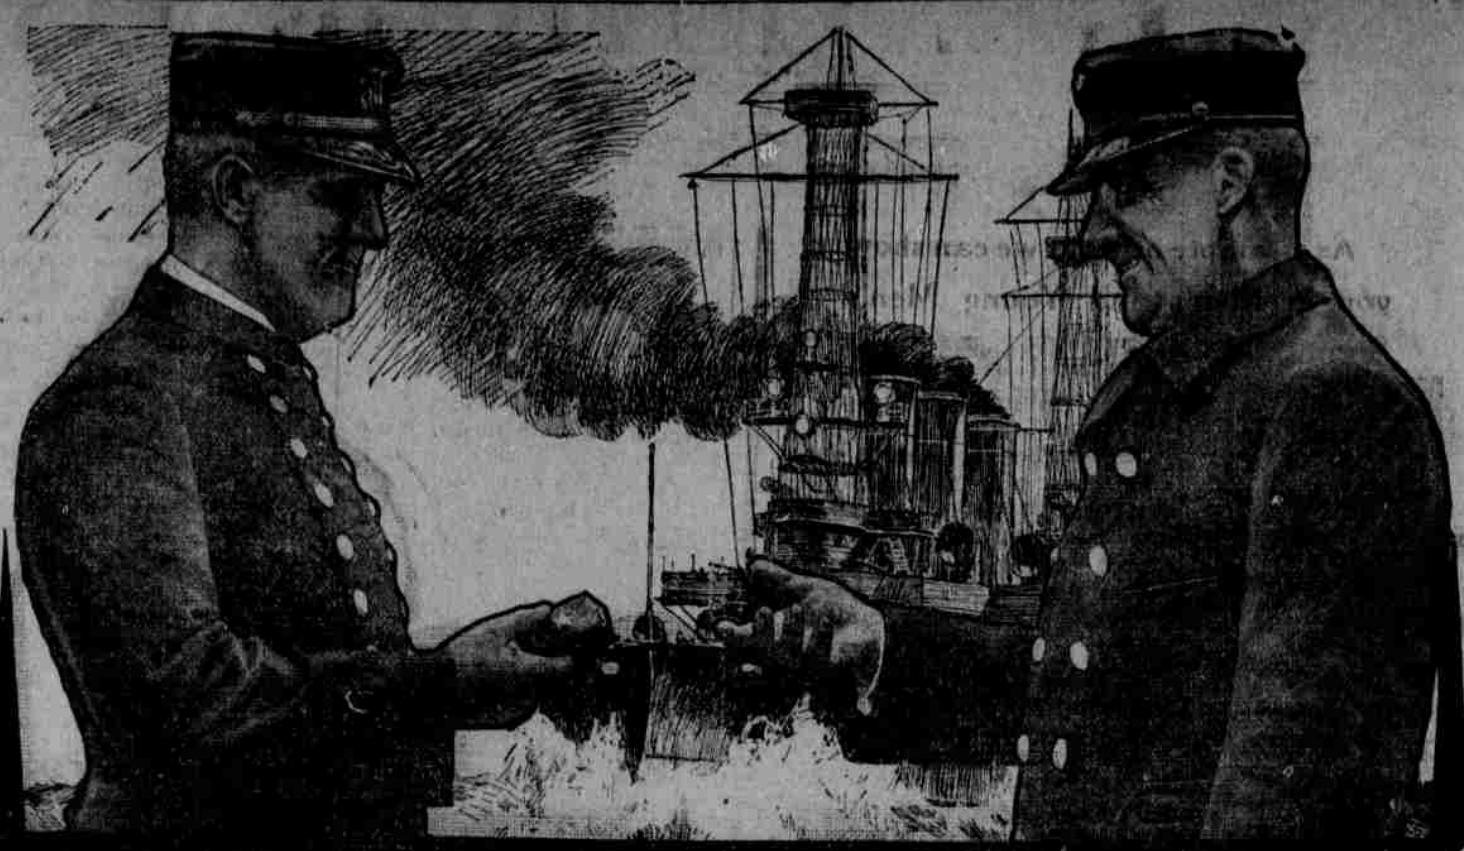

Away back in 1893 the definite beginning of abolition of tribal affairs with the Choctaws had its inception in the Atoka agreement. It was then expected that the matters would be speedily wound up. Tribal elections continued until 1904. The tribal council continued to meet every year until 1912, although its power was limited by the provisions that no act should be effective until approved by the President. Those members of the council who were chosen by the tribe in 1904 were to serve until they died or resigned from office. This continuance in office of the council and the chief was providing for by a ruling of the Department of the Interior under an act of Congress of 1906. When Governor Mc-

AN EASY WAY TO GET FAT AND BE STRONG

The trouble with most thin folks who want to gain weight is that they insist on dragging their stomachs or stuffing it with greasy foods, rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to convert into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, how your neck, waist, shoulders and bust disappear and you take on from 10 to 25 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. All leading druggists of Guthrie and vicinity have it and will refund your money if you are not satisfied as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous prostration and general stomach trouble, it should not be taken by those who do not wish to gain ten pounds or more.

"STAR—The Pocket-Piece of Gentility"

Men Who Chew Are Men Who DO

THE men of the navy who "draw a defensive line of steel" along our coasts have ever, in peace and war, found enjoyment in tobacco.

And the best "navy" plug, STAR Chewing Tobacco, appeals alike to the "tar" and the officer.

And STAR is a capital G-O-O-D tobacco, fat with extra long, chewing leaf of the mellowest variety, with a taste that lasts. In each thick STAR plug there are 16 full, chewable ounces.

A pure food commission and a board of weights and measures couldn't improve on STAR'S unvarying standard of honest weight, quality and absolute cleanliness of preparation.

Here's what American men think of STAR:

The pound STAR plugs chewed in one year, if placed end to end, would stretch from Portland, Maine, clear over to Seattle, Washington, down to San Francisco, across to Key West and end at Atlantic City, N. J.

Curtain died in 1911 Victor M. Locke of Antlers, who had been Governor McCurtain's private secretary, was appointed by President Taft to the vacancy.

Chief's Place Not Considered Important.

Many leaders in the Choctaw country, among members of the tribe do not consider the matter of a chief to be of great importance. They look upon delay in the payments as of grave moment and they hope to make of the Durant convention an instrument to impress upon the authorities at Washington the ground that it is just and right, but for the further reason that the Indians of the tribe are in sore need of the money that has been withheld from them by failure of Congress to make the appropriation.

Women of Sedentary Habits: Women who get but little exercise are likely to be troubled with constipation and indigestion and will find Chamberlain's Tablets highly beneficial. Not so good as a three- or four-mile walk every day, but very much better than to allow the bowels to remain in a constipated condition. They are easy and pleasant to take and most agreeable in effect. Obtainable everywhere.

OKLAHOMANS STILL ON JOB IN WASHINGTON.

Washington, D. C., April 21.—Although most of the members of Congress have returned home or are on the free junket to Hawaii, three members of the Oklahoma congressional delegation are still on the job in Washington. Senator Robert L. Owen of Muskogee, Congressman Dick T. Morgan of Woodward, and Congressman Jim McClintic of Snyder, are all in Washington, where they are enjoying the beautiful spring days such as no other city in the country can boast. Senator Gore is maintaining

his home in Washington this summer and sailing forth on an occasional chautauqua tour.

FOLEY KIDNEY PILLS FOR BACKACHE, KIDNEYS AND BLAODER

Swat the fly now; one swat now will save a million swats later.

Savannah, Ga.—Miss Mary Jane Farrell and Henry Beaumont were married the other day by Justice of the Peace McCall, using a marriage license which was issued 21 years ago. Both contracting parties were more than 70 years of age and would give no reason for the long delay in their nuptial arrangements.

QUICK RELIEF FROM CONSTIPATION

GET DR. EDWARDS' OLIVE TABLETS

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—a bloated head—acid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them, 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

Most Beautiful Princess in Europe a Refugee.
